Tutor Feedback on Assessment

Research Project Presentation - Content

Olha, you chose an area of British culture that interested you. You used Google Earth very effectively and your use of mock reporters made your presentation enjoyable to watch. You worked well with your teammates to research this topic. Your website had lots of extra useful information and you managed your time very well.

Research Project - Skills

You obviously had practised a great deal as you came across as being very confident. You frequently smiled and used very positive body language throughout your presentation. You engaged with the audience well and your English was entirely appropriate to the topic and the audience. You worked extremely well with your teammates to create a very coherent presentation.
