To Whom It May Concern:

Samsung Electronics Ukraine Co., LLC represented by Aleksey Mokhonko is honored to provide this letter of recommendation for Vitaliy Okhrimenko, our former corporate Korean language teacher since 2011.

I know Vitaliy since 2011. We used to have a number of cooperation sessions to train groups of our employees, top management and me personally.

Cooperation scope used to be:

- iterations of Korean survival course (targeted for Business Trips)
- dedicated trainings for top management
- comprehensive Korean study for interested employees

Sessions were adopted to the specifics of the corporate culture and our technology domain language.

Vitaliy is highly motivated, enthusiastic and creative tutor, flexible and quick-to-adapt to the way we do things in our company. The material was well-structured. Interactive study approach made the progress accelerate. Also there was a number of custom teaching techniques for systematic and deep understanding of the topics.

We regularly collected listeners feedback. Mostly they were satisfied and impressed by creativity and teaching style. We chose our Korean teacher carefully: by following a number of formal metrics (such as practical experience – through participation in industry and political negotiations as interpreter).

I can recommend Vitaliy Okhrimenko as one of the most proficient multi-lingual teacher and interpreter in our country (Korean, English, Russian, Ukrainian).

I can confirm fluent Korean, great teaching ability and excellent work attitude.

Vitaliy Okhrimenko used to be strong team player during his time with us. Current business circumstances made us suspend the collaboration, though we believe that future cooperation is absolutely possible.

We are deeply grateful for the efforts and knowledge contributed by Vitaliy Okhrimenko to our company.

Aleksey Mokhonko

R&D Director
